EXPERIENCE

SENIOR SOFTWARE ENGINEER, ALTO – FEB. 2022 - MAY 2023

- Led the Internal Tools team to reduce client support tickets, improved upon and built new workflows. (*Laravel, Vue.js, MySQL*)
- Reduced client support tickets by approximately 50% per month in Q3 of 2022.
- Improved workflows by automation. Example: Automate charging fees which resulted in saving the client support team 1 hour of work per day. Neglecting this improvement at high volume would have become unscalable for the company. (*Laravel, Vue.js, Stripe API*)
- Trained and mentored junior engineer. Including extensive training in the monolith repository and pair programming the implementation of new features.

FREELANCE WEB DEVELOPER, STEP CHANGE CONSULTING – FEB. 2022 - MAY 2022

- Design, developed and deployed an authenticated web application to handle maintenance requests. The goal was to increase reliability and accountability within the factory. (*Next.js, React, Vercel, Supabase, Tailwind*)
- Built with Next.js/React, deployed with Vercel and the backend is Supabase.
- Communicated status updates in a timely manner through email, phone calls and in-person meetings.
- The application was highly specific to the factory and how management handles machine maintenance and the status of that maintenance.

FREELANCE WEB DEVELOPER, STEEL VIRTUE GROUP – SEPT. 2020 - NOV. 2020

- Designed, developed and deployed a product display website for the company's catalog of products. (*Next.js, React, SSR/SSG, Vercel, SCSS*)
- Built with Next.js/React and deployed with Vercel.
- Implemented Steel Virtue Group's third party product API, Sales Binder, to populate the website with product information.
- Built with the best SEO practices.
- Designed the website with Figma.

SENIOR FRONTEND DEVELOPER, RED VENTURES – AUG. 2021 - FEB. 2022

FRONTEND DEVELOPER – NOV. 2017 - AUG. 2021

- Led frontend team planning, developing and deploying a new health education product using Next.js/React. This resulted in acquiring 12,000+ new users in the first 2 months. (*React, Tailwind CSS, Next.js, RESTful API*)
- Led frontend A/B testing team by developing new assets on Healthline articles. This resulted in approximately \$25,000/month increase in revenue. (*Javascript, HTML, Webpack, Node.js*)
- Worked on a team that engineered an online scheduling tool for a major healthcare provider in the Carolina's. The tool grew revenue an additional \$10 million/year. (*Vue.js, Vuex, RESTful API*)
- Oversee the entire lifecycle of our features - including component design, implementation and roll-out.
- Created a new workflow for generating static landing pages for the business team. (*React, Next.js*)

- Implemented CI/CD workflow with CircleCI to eliminate manual deployments. This resulted in more reliable deployments.
- Mentor junior engineers and onboard new engineers to my team.

FRONTEND DEVELOPER, CARBONHOUSE – MAY 2016 - NOV. 2017

- Created an internal tool for clients to capture bugs on their websites. Resulted in helping team become more efficient and organized. (*Vue.js, Firebase*)
- Contributed in the creation of component/styles library for the consumer facing websites.
- Retrieved data from MySQL using PHP to populate relevant content for each page.

WEB DEVELOPER, TAG COMMUNICATIONS – DEC. 2014 - MAY 2016

- Transformed Photoshop designed websites into fully functional responsive websites from scratch. (*HTML, CSS, PHP*)
- Collaborated with Project Managers and Designers to execute brand standards.
- Provided Executive Vice President with time proposals for potential web clients.
